Guiders
England

The Money Guiders England Network

The network is a free learning and development programme designed to support anyone who has money related conversations as part of their role. It's open to organisations and individuals who give any level of non-regulated money guidance as part of their work. We deliver this network on behalf of the Money and Pensions Service.

What We Offer

We organise and facilitate over **70 free online and in-person events** each year covering a wide range of topics from supporting people with household bills to savings to planning for later life. These events are delivered by experts in their field. Our Network also has access to a **free E-Learning site** and numerous other training and development opportunities. You will also be able to stay up to date with our **monthly newsletter**.

Together, we can make sure that people receive valuable money guidance wherever they access it. You can use our resources right away to help develop skills, share knowledge and improve lives.
